Section 408(f)(3)(J)(iii) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5174(f)(3)(J)(iii)) is amended by striking “2 years” and inserting “3 years”.

PURPOSE OF LEGISLATION

The purpose of H.R. 8266, as amended, is to modify the Federal cost share of certain assistance provided under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, to modify the activities eligible for assistance under the emergency declaration issued by the President on March 13, 2020, relating to COVID-19, and for other purposes.

BACKGROUND AND NEED FOR LEGISLATION

The *Robert T. Stafford Disaster Relief and Emergency Assistance Act* (Stafford Act, P.L. 93–288 as amended) authorizes the President to make assistance available via the Federal Emergency Management Agency (FEMA) to supplement state, tribal, territorial, and local (STTL) efforts to respond to and recover from an incident that exceeds all available resources and overwhelms STTL governments. FEMA’s Public Assistance (PA) program provides Federal help, typically through reimbursement, to STTL governments and certain private non-profit organizations for emergency and/or permanent work. PA eligibility is based on work and damage which occurred as a direct result of the incident that resulted in a Presidential declaration of Emergency or Major Disaster. FEMA covers no less than 75 percent of the cost of eligible PA projects. The Stafford Act and 44 CFR § 206.47 provides the President the authority and guidance to adjust the cost share requirement for the Public Assistance program.

Calendar year 2020 has been unprecedented for STTL governments facing a record-setting number of natural disasters¹ while simultaneously fighting the COVID–19 pandemic. Fiscal resources at the STTL levels are being impacted by disaster response and public health costs, while also facing declines in revenues that fund services for healthcare, education, public safety, transportation, and other vital programs as a result of necessary measures taken to combat COVID–19 and slow its spread.²

H.R. 8266, as amended, increases the Federal share from 75 percent to not less than 90 percent for emergencies and disasters declared by the President in calendar year 2020. Further, for COVID–19-related declarations—for which the President invoked Section 501(b) of the Stafford Act, which explicitly states “the United States exercises exclusive or preeminent responsibility and authority”—the bill increases the Federal share to 100 percent.

Additionally, the bill clarifies eligibility for certain services and activities undertaken to combat COVID–19 and protect public health, including personal protective equipment (PPE) and disinfecting services for front-line public sector employees and facilities, including first responders, courthouses, public schools, and public transit.

Given the lack of physical damages during COVID–19, the bill, as amended, also directs FEMA to enter into an agreement with the National Academy of Sciences to convene a committee to conduct a study on the use of the Stafford Act to respond to an event which does not cause physical damages. The results of this study could help to inform the use of Stafford Act authorities for future events without physical damages and whether any policy or legislative reforms may be necessary.

Finally, the bill authorizes FEMA to provide assistance in advance in certain circumstances. FEMA must provide reports to the
